Special to the Sentinel.

WASHINGTON, April 22.-There seems to be no doubt that the Democratic factions in New York, headed respectively by John Kelly and Herbert O. Thompson, have come to an understanding about New York City patronage. The President has repeatedly said to New Yorkers when they would call that he would not even consider applications until the factions could come to some understanding. Now it is said that Kelly and Missouri, asking him to advise by telegraph. The many had a series of the first National Bank of Fish-Thompson have had an amicable settlement, Tammany and the county Democracy men to share the offices basis satisfactory to each side. There seems to be no reason why, with a good man at the head of the gubernatorial ticket next tall, that New York should not not be carried for the Democracy by 80,000 majority. If there is not a serious break in the nominating convention the State will most assuredly prove Democratic.

You do not take into consideration the fact that I have to go through documents a mountain high. I am desirous of doing justice, but I have to take some time in looking over the many applications filed before making appointments. This is going to be a Democratic administration, but I must be given time in which to do the right thing."

The President is hampered in many directions. Many Democratic Senators and Representatives have made personal appeals to have the most offen ve radical partisans retained in public service. This is notably the case with Senator Colquit. of Georgia, who asked for the retention of Clifford, Deputy Sixth Auditor of the Treasury. Clifford is a Dr. L. G. Willard. of Vevay, Ind., is here.

Since assuming the duties of this office my attention has been called to the conduct of the foremen of the Mare Island Navy Yard in past years, particularly in 1882. After reading the testimony in the contested election case of buck vs. Dudley. taken in the fail of 1883, there is no doubt in my mind that the vote of the yard was practically cocced and controlled by the foremen, either with or without orders. The men were obliged to take their ballots in a folded form from the table presided over by one or more of the foramen, hold the ballot in sight while walking to the polls, for the purpose of preventing any change of ballot, and the balot was deposited without the voter having had the opportunity to see or know its contents. proceeding are still at the yard in the various departments. The name of the Brazilian preparation is "alveloz," and it is the juice of a Southeran plant. In conclusion, Dr. Douglas remarked that the General was, on the whole, improved to-day, though he was yet a very sick man.

At noon General Grant and wife went to drive in an open carriage. The salutes of bystanders were returned by the General with a smile and true military salute.

Doctors Barker, Shrady and Douglas met in consultation at 2 o'clock to-day. The General's throat was examined by aid of the electric light, and was found better than when last seen by Drs. Barker and Shrady on Sunday last. As Dr. Douglas was leaving, he said in response to an inquiry that the General experienced some pain during the examination of the throat, but otherwise he had suffered no more pain to day than vesterday. The throat was much improved except at the main point. The patient was stronger and could eat more and with a greater desire for food. General Grant, said Dr. Douglas, was better at present than when he took his last drive before the warn. ago last Sunday.

ANGLO-RUSSIAN WAR NEWS.

The General Opinion in Diplomatic Circles is That Peace Can Not Be Maintained.

London, April 22 .- That the Government expects war seems to be fairly inferred from. first, its last night's announcement of the probable evacuation of the Soudan; second. the repeated references mads by Mr. Gladstone, last evening, to the necessity of holding all troops there in readiness for service wherever they may be wanted (and these latter words were observed to be spoken with emphasis); third, the dem and for 11,000,000, meaning five pence half-penny increase on the pound in the taxes, a demand never before made except for war; fourth, it would not have excited popular feeling by so readily giving out Lumsden's belligerent

London's entire morning press spare no words in giving the lie to Komaroff upon Lumsden's testimony. This sentence from the Chronicle, hitherto a rather peaceful Liberal paper, is a good instance of the defiant tone of the press: "A more crushing rejoin-der could hardly be imagined. Not one sentence of Komaroff's report remains, not one clause of it was exempt from the grossest and most impudent perversion of truth.' This, doubtless, will also be the tone of John Bull to-day on 'Change and elsewhere. The Grand Duke Sergius, the brother of

the Emperer of Russis, and his spouse, the granddaughter of Queen Victoria, are expected at Darmstadt to-day, to visit the latter and the Princess Beatrice. The Duke and Duchess left Russia only last Saturday. There was much asking of questions at the Vienna bourse to-day. "Would they, if war was expected between their country and the Queen's country, have come, and do they bring reassuring messages from the Czar?" The Council of the Russian Empire have decided to refuse to exempt certain loans from taxation.
